Mr. W. H. Vogt III  
Watson Leavenworth Kelton & Taggart  
100 Park Avenue  
New York 17, New York

Dear Mr. Vogt:

Thank you very much for the two copies of the application on IMPROVED FILTER, Seligman and Toepffer, your file 582-339.

In a letter received from you about the first of December, you said that the fee on the patent application S.N. 843947 (Organoleptic Materials and Method of Production Thereof) would need to be paid in May and you were suggesting that a claim on products (flavors) might be added to that application before the final fee was paid. We discussed this with Mr. Helferich when he was here in December, and it was felt that we might have enough material for writing a separate patent application on the organoleptic products. Mr. Helferich may have discussed this with you. We are now preparing a disclosure that might be the basis for such a patent application and we will get it to you or to Mr. Helferich very soon for your opinion as to how it should be used. I am referring to this matter now because of the copy of the letter which you sent to J. D. Hind requesting samples to be sent to the West Germany patent office.

Sincerely yours,

*TCH*
